Direction : Read the following passages carefully and answer the questions that follow.

One simple physical contact lies behind the formation of a star, gravitational instability. The concept is not new. Newton first perceived it late in the 17th century.

Imagine a uniform, static cloud of gas in space. Imagine then that the gas is somehow disturbed so that one small spherical region becomes a little denser than the gas around it so that the small region's gravitational field becomes slightly stronger. It now attracts more matter to it and its gravity increases further, causing it to begin to contract. As it contracts its density increases which increases the gravity even more, so that it picks up even more matter and contracts even further. The process continues until the small region of gas finally forms a gravitationally bound object.

The primary purpose of the passage is to

- ☐
- describe a static condition
- ☐
- Support a theory considered out dated
- ☐
- depict the successive stages of a phenomenon
- ☐

**Direction : Read the following passages carefully and answer the questions that follow.**

The capitalist system of the society does not foster healthy relations among human beings. A few people own all the means of production and others though nominally few have to sell their labour under conditions imposed upon them, the emphasis of capitalism being on the supreme importance of material wealth. The intensity of its appeal is to the acquisitive intensity. It promotes worship of economic power with little regard to the means employed for its acquisition and the end that it serves. By its exploitation of human beings to the limits of endurance, its concentration is on the largest profit rather than maximum production.

Thus division of human family is done on the basis of economic circumstances. All this is injurious to division of human dignity. And when the harrowed Poor turn to the founders of religion for succor, they rather offer a subtle defence of the established order. They promise future happiness for their present suffering and conjure up vision of paradise to redress the balance to soothe the suffering and the revolt of the tortured man. The system imposes injustice, religion justifies it.

The passage indicates the capitalist system is

☐

Fair

☐

Ambitious

☐

Prosperous

☐

Dehumanizing
