- D Both high and low level of creativity can be found in both highly intelligent and average intelligent people.

Answer Given By Candidate: **B**

Question ID:623696

Section Name:PSYCHOLOGY

Question:

A student respects social order, is committed to elders, concerned about others and recognizes other's perspectives. the students is high in _____ .

- A Social competence
- B Cognitive capacity
- C Emotional competence
- D Entrepreneurial competence

Answer Given By Candidate: **A**

Question ID:623697

Section Name:PSYCHOLOGY

Question:

Match the List I with List II

List I	List II
A. Seashore's musical	I. Non-Verbal Test
B. Differential Aptitude test	II. Performance Test
C. Raven's Progressive Matrices	III. Generalised Aptitude Test
D. Draw - A- Person Test	IV. Specialised Aptitude Test

Choose the correct answer from the options given below:

- A A-IV, B-III, C-I, D-II
- B A-II, B-IV, C-III, D-I
- C A-I, B-II, C-IV, D-III
- D

A-III, B-I, C-II, D-IV

Answer Given By Candidate: **A**

Question ID:623698

Section Name:PSYCHOLOGY

Question:

International classification of Diseases (ICD-10) was proposed by:

- A Word Health Organisation
- B Indian Medical Association
- C American Psychological Association
- D Psychiatric Association

Answer Given By Candidate: **A**

Question ID:623699

Section Name:PSYCHOLOGY

Question:

Eysenck proposed that _____ refers to the degree to which people are socially outgoing or socially withdrawn.

- A Neuroticism vs introversion
- B Extraversion vs introversion
- C Extraversion vs emotional stability
- D Extraversion vs Psychoticism

Answer Given By Candidate: **B**

Question ID:6236910

Section Name:PSYCHOLOGY

Question:

- D. Next time he is hungry he again eats vegetables in anticipation of appreciation (reinforcement)
- E. Rahav acquires the taste of those vegetables and finds them good because he is continuously reinforced for eating them

Choose the correct answer from the options given below:

- A B, E, A, D, C
- B E, B, A, C, D
- C C, A, D, E, B
- D A, C, B, E, D

Answer Given By Candidate: C

Question ID: 6236911

Section Name: PSYCHOLOGY

Question:

Gordon Allport considered _____ traits as highly generalised disposition. They indicate the goal around which a person's entire life seems to revolve.

- A Cardinal traits
- B Central traits
- C Surface traits
- D Secondary traits

Answer Given By Candidate: A

Question ID: 6236912

Section Name: PSYCHOLOGY

Question:

Full form of GAS is :

- A General Adaptation Skills
- B General Adjustment Skills
- C General Adaptation Syndrome
- D General Adjustment Syndrome

Answer Given By Candidate: C

Question ID: 6236913

Section Name: PSYCHOLOGY

Question:

Identify the correct sequence with respect to bodily response to stress as explained by Selye.

- A. Continued exposure to the same stressor or additional stressor drains the body of its resources and leads to the stage of exhaustion
- B. Selye observed patients with various injuries and illness in hospital
- C. In the alarm reaction stage the individual is ready for fight or flight
- D. He noticed a similar pattern of bodily response in all the patients that he observed. He called this pattern General Adaption Syndrome (GAS) which involved three stages
- E. In the Resistance stage the parasympathetic nervous system calls for more cautious use of the body's resources

Choose the correct answer from the options given below:

- A A, E, B, D, C
- B C, D, B, A, E
- C B, A, D, C, E
- D B, D, C, E, A

Answer Given By Candidate: **D**

Question ID:6236914

Section Name:PSYCHOLOGY

Question:

Choose the statement which is not true about Hardiness.

- A It is a set of beliefs about oneself, the world and how they interact
- B Studies by kobasa show that people with high levels of stress but low levels of illness share three characteristics
- C Stress resistant personalities are committed to work, family, hobbies and social life
- D It consists of 'Three C' i.e, confidence competence and coverage

Answer Given By Candidate: **D**

Question ID:6236915

Section Name:PSYCHOLOGY

Question:

Answer Given By Candidate: **A**

Question ID:6236918**Section Name:PSYCHOLOGY****Question:**

Which of the following is a key symptom of panic disorder?

- A Prolonged, vague unemployed fear
- B Irrational fear of things
- C Recurrent attacks of intense terror
- D Inability to stop thinking about a particular idea

Answer Given By Candidate:C

Question ID:6236919**Section Name:PSYCHOLOGY****Question:**

Match the List I with List II

List I	List II
A. Diathesis stress model	I. Abnormal behavior is a symbolic expression of unconscious
B. Humanistic- existential model	II. Normal and abnormal behavior are learnt
C. Behavior model	III. Biological predisposition is set off by stressful situation
D. Psychodynamic model	IV. Aspects related to human existence

Choose the correct answer from the options given below:

- A A-I, B-II, C-III, D-IV
- B A-III, B-IV, C-II, D-I
- C A-III, B-II, C-IV, D-I
- D A-III, B-IV, C-I, D-II

Answer Given By Candidate:D

Question ID:6236920**Section Name:PSYCHOLOGY****Question:**

Rita was a victim of the earthquake that occurred in her village. She lost her mother and brother in it and was extremely stressed. She is likely to be expressing _____.

- A Somatic Symptom disorder

- B Depressive disorder
- C Post traumatic stress disorder
- D Bipolar disorder

Answer Given By Candidate: **C**

Question ID:6236921

Section Name:PSYCHOLOGY

Question:

Match the List I with List II

List I	List II
A. Obsession	I. Inability to stop thinking of a particular idea
B. Phobia	II. need to perform certain behavior repeatedly
C. Compulsion	III. Physical symptom in the absence of physical disease
D. Somatic Symptom Disorder	IV. Irrational fear

Choose the correct answer from the options given below:

- A A-IV, B-III, C-II, D-I
- B A-III, B-II, C-I, D-IV
- C A-I, B-III, C-II, D-IV
- D A-I, B-IV, C-II, D-III

Answer Given By Candidate: **D**

Question ID:6236922

Section Name:PSYCHOLOGY

Question:

The disorder which involves persistent preoccupation about developing a serious disease and constantly working about its possibility is known as _____.

- A Conversion disorder
- B Illness anxiety disorder
- C Dissociative amnesia
- D Agoraphobia

Answer Given By Candidate: **B**

Question ID:6236923

Section Name:PSYCHOLOGY

Question:

- C Private expression of opinion exists
- D Individuals are independent in their way of thinking

Answer Given By Candidate: **Not Attempted**

Question ID:6236935

Section Name:PSYCHOLOGY

Question:

Match List I with List II

List I	List II
A. Audience	I. Impulsivity
B. Mobs	II. Complimentary skills
C. Team	III. No cohesiveness
D. Crowd	IV. Passive

Choose the correct answer from the options given below:

- A A-I, B-II, C-III, D-IV

- B A-IV, B-III, C-II, D-I
- C A-IV, B-I, C-II, D-III
- D A-II, B-IV, C-III, D-I

Answer Given By Candidate: C

Question ID: 6236936

Section Name: PSYCHOLOGY

Question:

Arrange the sequence of group formation in correct order as suggested by Tuckman.

- A. Norming
- B. Performing
- C. Storming
- D. Adjourning
- E. Forming

Choose the correct answer from the options given below:

- A B, A, D, C, E
- B D, C, E, A, B
- C E, C, A, B, D
- D A, B, C, D, E

Answer Given By Candidate: C

Question ID: 6236937

Section Name: PSYCHOLOGY

Question:

In an experiment Latane and his associates, asked a group of male students to clap or cheer as loudly as possible. They varied the group size; individual were either alone, or in groups of two, four and six. The results of the study showed that although the total amount of noise rose up, as size increased, the amount of noise produced by each participant dropped. Each participant put in less effort as the group size increased. Identify the phenomenon.

- A Social Facilitation
- B Social Inhibition
- C Group Polarisation
- D Social Loafing

Answer Given By Candidate: D

Question ID: 6236938

Section Name: PSYCHOLOGY

Question:

The attributes associated with an affective psychologist are

- A. Positive regard for others
- B. Ability to Sympathise
- C. Ability to empathise
- D. Authenticity

- C Stereotypes
- D Deprivation

Answer Given By Candidate: **D**

Question ID:6236940

Section Name:PSYCHOLOGY

Question:

Arrange the following in terms of increasing interpersonal physical distance (according to Hall)

- A. Public Distance
- B. Social Distance
- C. Intimate Distance
- D. Personal Distance

Choose the correct answer from the options given below:

- A C, D, B, A
- B A, B, C, D

C B, C, A, D

D D, A, C, B

Answer Given By Candidate:A

Passage:

Read the passage given below to answer

Projective techniques is a term that encompasses any test or procedure designed to increase insight into individuals by allowing them to respond freely to ambiguous stimuli. The underlying assumption is that, when faced with unstructured or ambiguous stimuli, people will reveal aspects of their personality in their attempt to structure the material.

Projective techniques comprise inkblot methods, story-telling methods, figure drawing methods, and sentence completion methods. In addition to being less structured than objective measures, these four types of projective methods differ from each other in their degree of ambiguity which often resides mainly in their stimuli or in their instruction.

Question ID:6236941

Section Name:PSYCHOLOGY

Question:

Projective techniques are based on _____ theory of personality that tells us, a large part of human behaviour is governed by unconscious motives.

A Psychoanalytic

B Behavioral

Answer Given By Candidate: **D**

Passage:

Read the passage given below to answer

Psychotherapy is a treatment for healing of psychological distress. Is not a homogenous treatment method. There are about 400 different types of psychotherapies some of them Focus on acquiring self-understanding while other therapies are more action oriented. Pscho-analysis, behavioral, cognitive and humanistic are the important systems of psycho therapy. All therapeutic approaches are correctives and helping in nature. The effectiveness of a therapeutic approach for a patient depends on a number of factors such as severity of the disorder, degree of distress faced by others, availability of time, therapeutic alliance, effort etc. The therapist requires to see professionally trained before embarking on the journey of psychotherapy. Try to recollect how you were given rewards, praises and tokens for your good work.

Question ID:6236946

Section Name:PSYCHOLOGY

Question:

When one has the compassion and pity towards the suffering of another but is not able to feel like another person it is called _____.

- A Unconditional positive regard
